ANOTHER DESERTION.

HON. ELI PERKINS GOES BACK ON THE REPUBLICAN PARTY.

Why He and MacVeagh and Gresham and Cox are Against Harrison—"We are a Democrat," says Eli.

At a recent Republican meeting Eli Perkins read the following letter:

Thomas H. Carter, Chairman Republican Committee—Dear Sir: Below I give the reasons why Wayne MacVeagh, Judge Gresham, Governor J. D. Cox and I desert Harrison and Protection and come out for noble Grover Cleveland and Free-trade:

We are against Harrison because he is an honest Christian; because he is for temperance, and for twenty years has been a Christian vestryman, and twice a day bows down in family prayer.

We are against Harrison because he drew his sword for the Republic in '61, while noble Grover Cleveland bravely staid at home and hired a substitute, and paid him with the money earned by hanging criminals.

We are down on Harrison because he did not desert the Nation, as did the noble Democratic party, with secession in the Senate, theft in the War Department, bankruptcy in the Treasury, and treason in the field.

We are a Democrat. We are against Harrison and the Republican party because they freed four million slaves in '63; because they made them citizens and gave them the right to vote for the Nation for which they fought, and because if these infamous Republicans were once in power they'd honestly count these freedmen's votes and stop a noble Democrat from holding by fraud the Presidential office.

We are a Democrat. We are opposed to Harrison and Protection because the English aristocracy hate them worse than they hate an Irish patriot, and because if Harrison remains our President he will watch the Tariff and see that it protects our workmen.

We are a Democrat. We are down on the Republican party for saving the Republic when seventeen Democratic states trod down our flag; down on the Republican party for slaughtering 100,000 Free trade rebel Democrats, and down on Lincoln, Grant and Garfield—yes, and Logan, Hale, Conkling—for making England give up Mason and Slidell, spit on the rebel flag, and reverently cheer the stars and stripes.

We are a Democrat. We are down on Harrison because he killed Mills's English Tariff bill for lowering the wages of our Northern workmen; down on him because he says he'll keep the Chinese out, and hold back ignorant paupers coming in to oust our high priced workmen of the North.

We are down on Harrison because he will keep such Copperheads as Thurman, Ad Stevenson and Daniel Voorhees out; because we love those noble Democrats, who, when we were soldering, cursed old Abe Lincoln and stabbed us in the back.

We are a Democrat. We are for Cleveland and Free-trade because all our ex-secessionists are for them; because with Free-trade our mills will stop and starving European workmen will make our silk and tin, unless our Yankee workmen work, like them, for pauper pay.

We are for Cleveland because he kicked the Yankee soldiers, vetoed 600 pension bills and sent the crippled veterans back to starve or fill the poorhouse, and down on Harrison because he would not turn his back on legless comrades with arms shot off while holding up the Stars and Stripes.

We are a Democrat. We are for Cleveland because England wants him, and because he favors building up great English industries by breaking down American manufacturers; because he wants the Yankee workmen to live on English pay, and because he wants the Free trade South to ship direct from England and kill our Yankee workmen in the North.

We are for Cleveland and Free-trade because every rebel who shot into our flag is for them. I am a Democrat for Free-trade and against the Yankee workmen because Jeff Davis was, and so are Beauregard and every old slave driver of the South.

We are a Democrat. Yes, we're down on Harrison because he wants our honest silver dollar good as gold, and because he wants us to pay high wages here at home, when we could buy so cheap from starving paupers on the other side.

We love Grover Cleveland because he weeps and cries "Reform the ballot," then squelches a million freemen's ballots in the South, but I am down on Harrison because he wants every Union-loving freeman, black or white, to cast his honest vote, when he knows so well an honest count will break the Democratic South and stop another President by fraud. Yours truly, ELI PERKINS.

Death of Mrs. Thomas Gilmore.

As was feared the death of Mrs. Thomas Gilmore terminated fatally. Her death occurred at Hinton, W. Va., yesterday afternoon about 3 o'clock. She had been ill but two weeks with typhoid fever, and for several days her condition had been alarming.

She was formerly Miss Lizzie Byrne of Covington, and next Friday would have been the first anniversary of her happy marriage to Mr. Gilmore. She leaves her husband and a little daughter, two months old, besides a host of friends who only knew her to love her.

Her husband is a brother of M. R. Gilmore of this city, and was a resident of Maysville for several years himself. He is now connected with the C. and O. at Hinton.

The remains will arrive in Maysville this afternoon, and the funeral will take place at 10 o'clock to-morrow morning, with High Mass at St. Patrick's Church. Interment at Washington.

MONEY ORDER OFFICES.

List of New Ones Just Established in Mason and Adjoining Counties.

Postmaster General Wanamaker has just issued an order extending the Money Order System to nearly two thousand Fourth-class Postoffices throughout the country. Among the number are these in Mason and neighboring counties:

- Mason county—Dover, Germantown, Mayslick, North Fork, Washington.
- Robertson county—Mount Olivet.
- Lewis county—Concord, Covedale.
- Bracken county—Brookville.
- Fleming county—Elizaville, Ewing.
- Greenup county—Russell.
- Bath county—Olympia.
- Nicholas county—Moorefield.
- Bourbon county—Centerville, North Middletown.

Miss LIZZIE NEWMAN COX is some better this morning.

FOR correct styles in Fall and Winter Millinery call on Mrs. L. V. Davis, Zweigart Block.

THE meeting of the colored people at Dieterich's Park Thursday, in honor of their Emancipation, promises to be a big affair.

THE large plate glass which was to be used in the new bay window of the Bank of Maysville, while being loaded on a dray at the wharf this morning, fell and was smashed into smithereens.

A Cholera Scare.

A reported outbreak of cholera at Helmetta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera but a violent dysentery, which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Helmetta, says Chamberlain's Colic, Cholera and Diarrhoea Remedy has given great satisfaction in the most severe cases of dysentery. It is certainly one of the best things made. For sale by Power & Reynolds, Druggists.

Deadly Diphtheria.

Private advices from Esculapia Springs give a gloomy account of the ravages of diphtheria in that portion of Lewis county. The writer says that in one day five children were buried in a single graveyard, and that in one family the mother and two children died. In another, while an infant child was being buried a four-year-old child died at home. There is great destitution among the poor, and a wide field and ripe harvest for genuine missionary work. Let some of our Christian philanthropists take their eyes off India, China and Japan for a few months and cast them on the poor at our own doors.

The Verdict Unanimous.

It pleases the lawyer and his client, too, to have the verdict of the jury unanimous. A great jury composed of the American public has rendered an unanimous verdict on Dr. Hale's Household Cough Cure as a medicine, agreeing that its promises of a speedy cure for coughs, colds and bronchial troubles are always carried out to the letter. This pleasant verdict has not been obtained without great pains taken to make it the best cough cure on the market. Try a bottle when you have a cough or cold and you will belong to the "unanimous" ever after. For sale by Power & Reynolds, Druggists.

The Game Law.

A good deal has been said in the newspapers this fall in regard to the game law. It is generally understood to be lawful to hunt quail in Mason county after October 20th. Those who think this are in error as shown by the following act passed by the General Assembly on March 23d, 1890:

Be it Enacted by the General Assembly of the State of Kentucky, 1st. That it shall be unlawful for any person to hunt, catch, kill or pursue or trap any partridge or quail in Mason county at any time other than the period embraced between the 15th day of November and the 1st day of January of each year.

2d. Any person violating the provisions of this act shall, upon conviction, be fined for each offense not less than \$10 nor more than \$25.

3d. This act shall take effect from and after its passage.

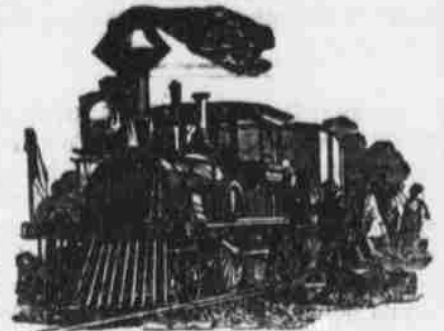

Approved March 23d, 1890.

It is lawful to hunt rabbits as heretofore after October 20th.

AMONG THE RAILROADS.

THE STEEL HIGHWAYS THAT LEAD TO AND FROM MAYSVILLE.

Items of the Rail That Are Stoked Up and Piled Into The Ledger's Columns by a Thoroughly Competent Engineer.

Passenger traffic on the C. and O. is not so heavy just now.

A regular meeting of the Order of Railway Conductors on the division including the Lexington Division of the C. and O., the L. and N., the Kentucky Central, and the Cincinnati Southern Railways, was held at Lexington Sunday.

A deal has been completed at Chillicothe, O., says The Courier-Journal, by which the greatest coke field in the United States will be opened up in the New River District along the Chesapeake and Ohio Railway in West Virginia. The Vanderbilts are said to be interested.

The telegraph operators and station agents of the Gulf, Colorado and Santa Fe system went out on a strike Sunday night at 7 o'clock. The cause of the trouble is a refusal to make \$60 the monthly maximum pay and to make twelve hours a day's work, with pay for extra time.

Says The Ashland News: Since the C. and O. local freight trains have been running over the line of the O. and B. S. division the engineers have been greatly bothered at the curve above the O. and B. S. shops by trees along the banks of the ravine obstructing their view while switching long trains. Section Foreman Whitt was called yesterday, and his crew removed the entire collection.

Clement in "The Bells."

Of the new thespian star, Clay Clement, who will appear at the Pike next week, a well-known critic says: "The leading role in 'The Bells' is Mathias, and in this characterization Mr. Clement has achieved a success that calls for the highest praise, and constitutes one of the most interesting dramatic studies. The writer has seen Mr. Henry Irving play this role frequently, both in England and in this country, and while it may be considered hereby by the admirers of the English actor to institute a comparison between his interpretation and that of Mr. Clement, the writer has no hesitancy in expressing the opinion that the Mathias of Mr. Clement does not suffer in the comparison." Coming soon at Washington Opera house.

Cholera.

When properly treated as soon as the first symptoms appear, cholera can nearly always be cured. The patient should go immediately to bed and remain as quiet as possible. Send for a physician, but while awaiting his arrival take Chamberlain's Colic, Cholera and Diarrhoea Remedy in double doses after each operation of the bowels more than natural. If there is severe pain or cramps, take it in double doses every fifteen minutes until relieved. This Remedy has been used with great success in seven epidemics of dysentery that were almost as severe and dangerous as cholera, and if used as directed a cure is almost certain. Every family should have a 50 cent bottle at hand ready for instant use. After the disease is under control castor oil must be taken to cleanse the system. No other physic or substitute will do in place of castor oil. For sale by Power & Reynolds, Druggists.

A Saturday Night Hair Cut.

It was Saturday night in a barber shop and a row of waiting customers sat around the wall. When "next" was called for the—tenth time a grizzled customer arose and took his place in the barber's chair, and the barber fixed the towels about him and was ready to lather his face when the customer remarked quietly, "I believe I will take a hair cut."

It was a commonplace remark, often made in a barber-shop, and though only directed to the barber it caught the ear of every waiting individual and the entire assemblage, as one man, turned easily in its seat. There were glances exchanged then mutterings in a strange tongue. One said "a-a-w, ow" another whispered "L's far," another damp tell, and so on, in cabalistic tongue the mutterings went round, gathered up and repeated through set teeth till all had been heard from. Then fierce glances from eyes which glared above curled lips shot out toward the grizzled customer who was having his cranium relieved of its over-ripe crop, but if he was conscious of being a target he gave no sign. He probably was one of those who know not in what esteem is held the man who asks for a hair cut in a crowded barber-shop on Saturday night.

DECORATING.

Preparations for the Dedicating Ceremonies at Chicago.

Sky-Scrapping Buildings Fairly Smoothed in Flags and Drapery.

The Auditorium Electric Light Arch Will Be Very Striking—The Estimated Cost of the Decorations Will Be a Million and a Half Dollars.

CHICAGO, Oct. 18.—Chicago has already donned a considerable part of her gala dress. Notwithstanding the fact that it was the Sabbath, an army of decorators worked all day on the downtown buildings, and by night time a complete transformation had taken place on several of the business thoroughfares. Many of the sky scrapers received gorgeous coats of paint of many colors they are to wear during the Columbian dedication ceremonies, while others were being prepared for the more elaborate trimmings they will receive in the next twenty-four hours.

Work on the Auditorium was progressing rapidly when darkness overtook the decorators, who will complete the work Monday. It is along the line of march where the most beautiful designs are to be seen. In the northern part of the parade district hundreds of yards of bunting are arranged in tasty designs and added by banners, patriotic emblems and national colors. Work on the city hall and county building has been commenced, but not enough has been done as yet to give one an idea of what the artistic results will be. On the county building there is a large canvas typifying the landing of Columbus. The figures are dramatic and the colors are bright and many. Over the Randolph street front is a painted band of the Goddess of Liberty. The portraits of Washington and Grant adorn other parts of the building and it is probable that the city hall and county building will be one of the most attractive on dedication day.

The question of opening was broached to Mrs. John A. Logan, who is at the Grand Pacific. She explained her negative vote at the meeting of lady managers held in Philadelphia some months ago in this wise: "Mrs. Lucas, who presided at the meeting," she said, "put the question in this way: 'All who are against dishonoring the Sabbath say aye.' Naturally, none of us were in favor of dishonoring a day and so we voted against the proposition. I think that if the machinery be not allowed to run on Sunday, the exhibition should be open so that the masses may have all the greater opportunity of benefiting by its elevating and refining influences."

As building after building dons the festive attire selected for this week the Spanish yellow becomes more popular, and is usually displayed in broad sheets of wide festoons. Altogether the effect is startling. Sober, gray-faced, soot-stained office buildings and stores assume new faces when the gay tints are spread over them, and many are changed to such a degree that nothing but an unwavering faith in the stability of Chicago's commercial institutions and the street numbers will keep them from being regarded as strangers to-day.

The decorative fever proves to be contagious. It is epidemic, and even man's and woman's habiliments are not proof against it. Terra cotta four-in-hand scarfs striped with white are moving from shop windows to decorate shirt fronts, and wide-brimmed felt hats of a spanish shape, terra cotta colored and trimmed with white ribbon bows are worn by the young women, escorted by the decorated young men.

Perhaps the most striking decorative feature to be seen on the lake front will be the auditorium electric arch at the corner of Congress street and Michigan avenue. Four masts, rising from ornamental bases and carrying gold-leaved globes, will be connected by lines of tinted incandescent lights. Flags, banners and festoons will make the arch beautiful by day, and the ten thousand glowing bulbs, flashing prismatic rays, will give it renewed charms at night.

It is estimated that \$1,500,000 will not cover the cost of decorations.

Meteor Wrestling With a Wind Mill.

SAN FRANCISCO, Oct. 18.—The family of Rev. W. W. Ferris, who occupy the Landley mansion near Black Point were rudely awakened by a loud explosion caused by meteor striking the wind mill. The meteor is described as appearing as large as the full moon with a pale silvery color on its edge, with a mark of red in the center. The wind mill was completely shattered.

Plaster Cast of Corbett's Hand.

LIMA, O., Oct. 18.—James J. Corbett gave a sparring exhibition Saturday afternoon at Toledo, then came here for an evening performance. While in Toledo the Libby glass works had a plaster cast made of his right hand, and will make glass paper weights from it to exhibit at the World's fair, with an affidavit from the world's champion.

Mysterious Death of a Young Girl.

KALAMAZOO, Mich., Oct. 18.—The body of a 17 year old girl, with numerous gashes in her face and an amputated hand, was found on the railroad track east of here. Three hundred dollars were found on her person. The affair is a mystery.

A Slaughter of Horses.

DALLAS, Tex., Oct. 18.—Forty thousand dollars worth of fine horses were killed in a freight wreck Sunday. The horses were on their way to run at the fair track. The names and the owners of the horses could not be obtained.
